

# Misr International University Report Times Higher Education Impact Ranking

## SDG 1:

# No

# Poverty

1 NO  
POVERTY

At Misr International University, our commitment to ending poverty in all its forms is reflected in initiatives that uplift communities, promote equal opportunities, and support students and families through education, outreach, and programs. These efforts contribute to **poverty alleviation** and enhance the **resilience of the poor** through **financial aid** and community **development aid** programs that foster long-term **financial empowerment** and sustainable growth.

## 1.4.2. Local Start-Up Financial Assistance

Misr International University (MIU) actively supports community development through initiatives that promote perseverance, hard work, and social empowerment. The University organized exhibitions in February 2023 and November 2024 showcasing handmade products created by productive families from **Misr El-Qadima and El-Salam City**, as well as visually impaired artisans from the **Dunyatna Society for the Blind**. These events highlighted diverse crafts and provided logistical and financial support, including transportation and display arrangements.

The MIU community participated by purchasing products, reinforcing the University's commitment to social responsibility, inclusivity, and poverty alleviation. In addition, MIU collaborates with the **Nile Palace Charity Foundation**, offering financial assistance and supporting efforts to establish socially and financially sustainable start-up projects within the local community.
