

Misr International University Report

Times Higher Education
Impact Ranking

16 PEACE, JUSTICE
AND STRONG
INSTITUTIONS

SDG 16:

Peace, Justice and Strong Institutions

This report outlines Misr International University's commitment to Sustainable Development Goal 16. We detail our efforts in fostering transparent governance, ensuring elected representation, engaging with stakeholders, maintaining robust anti-corruption policies, and upholding academic freedom. Through these initiatives, MIU strives to be a beacon of ethical leadership and institutional strength.

16.3.1. Provide Expert Advice to Government

Our university actively fulfills its role as a key partner in governance by providing robust, evidence-based support to government bodies at all levels. This commitment is realized through direct expert advice to policymakers, specialized capacity-building programs, and active participation in government-commissioned research.

1 National Impact

University staff serve as expert advisors to governmental and non-governmental organizations, providing strategic counsel on critical areas including education, research, health promotion, quality assurance and community development.

2 National Dialogue

Our staff and students participated in [Egypt's National Dialogue](#), offering expert advice on youth political empowerment and supporting student unions.

3 International Collaboration

University experts provide strategic advisory services globally, guiding policies of international institutions in technology, health, and sustainable development, and sponsoring conferences like [BioNat-8](#).
