

تقرير إدارة تدريب أطباء  
الإمتياز عن العام التدريبي  
2020 - 2021

# تقرير عن العام التدريبي

## ٢٠٢٠ - ٢٠٢١

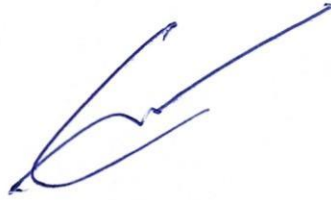

(الفترة من ٠١ نوفمبر ٢٠٢٠ وحتى ٣١ أكتوبر ٢٠٢١)

## تقرير العام التدريبي ٢٠٢٠ - ٢٠٢١ (خارج الجامعة)

الفترة من ٠١ نوفمبر ٢٠٢٠ وحتى ٣١ يوليو ٢٠٢١

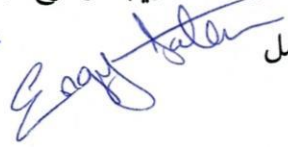

- تم إرسال رسالة بريد إلكتروني لطلبة الفرقة الخامسة لإخبارهم بميعاد إنعقاد المحاضرة التعريفية التي تنظمها إدارة تدريب أطباء الإمتياز عبر برنامج zoom للترحيب بأطباء الإمتياز وتعريفهم كافة التفاصيل التي يجب معرفتها قبل بدء العام التدريبي (خصوصاً في ظل الجائحة) والإجابة عن كافة إستفساراتهم بخصوص التدريب داخل الجامعة وخارجها.
- تم التواصل مع ٢٩٦ طبيب إمتياز (دفعة ربيع ٢٠٢٠) وشرح نموذج التقدم للعام التدريبي ليقوموا بتحميله من على موقع الجامعة وتوضيح أنه سيتم إلحاق كافة أطباء الإمتياز بالتدريب خارج الجامعة لفترة تسعة أشهر بالإماكن والتوقيتات التي يختارونها وسيتم إلحاقهم بالتدريب داخل الجامعة خلال آخر ثلاثة أشهر (في حالة إنحسار جائحة كورونا).
- قام أطباء الإمتياز بتحميل نموذج التقدم للعام التدريبي وطباعته وإستيفاء كافة البيانات المطلوبة به ليقوموا بتسليمه لموظفي إدارة تدريب أطباء الإمتياز خلال الأيام المحددة مسبقاً.
- قام أطباء الإمتياز بإرسال أماكن التدريب الراغبين في التدريب بها خلال فترة أول ستة أشهر من العام التدريبي على البريد الإلكتروني الخاص بالإدارة، وتم إصدار خطابات إلحاقهم حسب رغبة كلاً منهم إستعداداً لتسليمها لأطباء الإمتياز بعد إستلام النموذج الخاص بكل طبيب إمتياز.
- تم التنظيم لإستلام النماذج من أطباء الإمتياز في ساحة الجامعة للحفاظ على التباعد الإجتماعي وتطبيق الإجراءات الإحترازية وكذلك تسليمهم خطابات الإلحاق لمن قام بإرسال رغبته في الوقت المحدد.

## تقرير العام التدريبي ٢٠٢٠ - ٢٠٢١ (داخل الجامعة)

الفترة من ٠١ أغسطس ٢٠٢١ وحتى ٣١ أكتوبر ٢٠٢١

- تم مناقشة قرار إستئناف أطباء الإمتياز التدريب داخل مجمع العيادات بعد إنخفاض أعداد المصابين بفيروس كورونا المستجد بلجنة إجتماع إدارة تدريب أطباء الإمتياز بتاريخ ٠٥ يوليو ٢٠٢١ نظراً لطلبات أطباء الإمتياز المستمرة للتدريب داخل الجامعة.
- بعد عرض المقترح على إدارة الجامعة والموافقة عليه تم عقد عدة إجتماعات بين إدارة تدريب أطباء الإمتياز ومجمع العيادات والأقسام المختلفة لتنسيق إستئناف التدريب وطريقة تطبيق نظام العلاج الشامل (Comprehensive)
- في ١٣ يوليو ٢٠٢١ تم إعلان كافة إدارات الجامعة بميعاد إستئناف تدريب أطباء الإمتياز داخل الجامعة كإدارة الحسابات لتحصيل المصروفات المقررة وإدارة الأمن لإتخاذ كافة الإجراءات لإستقبالهم
- تم الإجتماع بالأقسام لتحديد السادة المشرفين الذين سيكونوا مسئولين عن أطباء الإمتياز في كل قسم
- تم إستحداث نظام الإشراف المباشر (Tutors) حيث يتم تخصيص أحد أعضاء هيئة التدريس لمتابعة مجموعة محددة من أطباء الإمتياز وحل كافة المشكلات التي تواجههم ورفع تقرير دوري إلى مشرف الأقسام ،وقد تم إختيارهم من قبل الأقسام
- تم إرسال رسالة بريد إلكتروني لأطباء الإمتياز من دفعتي ربيع وصيف ٢٠٢٠ لإعلانهم ببدء التدريب الإجباري داخل الجامعة لفترة ثلاثة أشهر بدءاً من أغسطس وحتى أكتوبر ٢٠٢١ وإستقبال كافة إستفساراتهم عبر البريد الإلكتروني
- تم عمل إجتماع لأطباء الإمتياز عبر تطبيق Zoom للإجابة عن كافة إستفساراتهم وشرح كافة الخطوات الواجب إتباعها لبدء التدريب وشرح جداول حضورهم وإيام التدريب وطريقة التدريب بنظام العلاج الشامل

- تم إستقبال أطباء الإمتياز يوم ٠١ أغسطس ٢٠٢١ تبعاً لأيام حضورهم الموضحة بالجداول الموضوعه وعقد محاضرات في مكافحة العدوى (Infection Control) وإستلام إقرار إستلام العمل بالجامعة منهم وتوجيههم بالعيادات المختلفة.
- تم الإجتماع مع أطباء الإمتياز في نهاية اليوم الأول للتدريب لسماع كل مطالبهم والمشكلات التي تواجههم (إن وجدت) وشرح كافة الأمور
- تم الإجتماع مع منسقي الأقسام في نهاية اليوم الأول للتدريب لمناقشة ما تم والوقوف على المشكلات التي واجهت الأقسام إن وجدت
- التأكد من سير خطة التدريب الموضوعه على أكمل وجه وهي كالآتي:

#### خطة تدريب اطباء الامتياز بعيادات الجامعة في الفتره من اغسطس ٢٠٢١ الى اكتوبر ٢٠٢١

- بناءً على الخطة الموضوعه من كلية طب الفم والأسنان لإستكمال العام التدريبي لاطباء الامتياز ٢٠٢٠-٢٠٢١ داخل العيادات بالجامعة، تم وضع الخطة الآتية:
١. يتم تدريب الاطباء على نظام العلاج الشامل للفم بمشاركة التخصصات العلمية :
    - طب الفم و أمراض اللثة والتشخيص والأشعة.
    - الطب التحفظي: شعبة العلاج التحفظي، شعبة علاج الجذور، شعبة التيجان و الجسور.
    - الإستعاضة الصناعية للأسنان.
    - جراحة الفم والوجه والفكين.
  - على أن يقوم قسم طب اسنان الأطفال و الصحة العامة والتقويم بالتدريب منفصلاً على الاطفال مرضى الاسنان على أن يتم التدريب في العيادات كالآتي:
  ٢. يتم توزيع الدفعة الى خمس مجموعات (A B C D E) كل مجموعة مكونه من ٦٠ طبيب امتياز بحيث يكون هناك ثلاثة أيام عمل لكل طبيب امتياز اسبوعياً.
  ٣. توزيع العمل بالعيادات كالتالى:

- 1) Restorative – Clinic N
- 2) Periodontics & Pedodontics – Clinic M
- 3) Oral Surgery & Removable Prosthodontics – Clinic C

*Egypt*

بواقع ٦٠ طالب في كل عيادة.

٤. الأسبوع الأول من التدريب في الفتره من ٨/١ الى ٨/٥ يحتوي على توعية نظرية بالتزامن مع التدريب بعيادات الجامعة حسب الجدول المرفق.

(Clinic N) يتم توزيع مرضى تخصصات الطب التحفظي على أطباء الامتياز على مدار اليوم.

(Clinic M) يتم توزيع مرضى في تخصص طب الفم و أمراض اللثة والتشخيص والأشعة وكذلك طب أسنان الأطفال على أطباء الامتياز على مدار اليوم.

(Clinic C) يتم توزيع مرضى في تخصص جراحة الفم والوجه والفكين و كذلك الاستعاضة الصناعية للاسنان على أطباء الامتياز على مدار اليوم.

٥. التأكيد على الاشراف لمتابعة عدد المرضى لكل طبيب لتحقيق عدالة التوزيع.

٦. تواجد ممثل عن مركز التصوير و التوثيق بعيادة العلاج التحفظي ويستدعى للعيادات الاخرى عند اللزوم.

٧. تم تشكيل لجنة إدارية للتعامل مع الطوارئ يومياً مكونة من:

ادارة تدريب الامتياز:

- د. ايمان التفتازاني
- ط. انجي فطين
- ط. ديانا حازم
- د. أحمد خلف

برنامج العلاج الشامل:

- أ.د. دينا القصاص

ادارة مجمع العيادات:

- أ.د. مدحت العوضي

- د. يوسف صدقي

- د. محمد نبيل

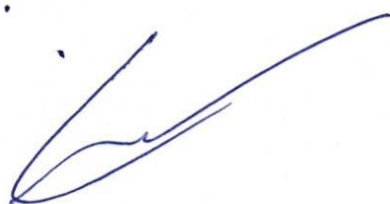

٨. تم إقامة يوم علمي لعرض الحالات التي قام بها أطباء الإمتياز خلال فترة تدريبهم داخل مجمع العيادات بالجامعة بحضور السيد الأستاذ الدكتور عميد الكلية والسيد الأستاذ الدكتور مدير إدارة تدريب أطباء الإمتياز وممثلين عن كافة الأقسام العلمية  
وقد تم إختيار عدد ٣٦ طبيب إمتياز لحضور اليوم العلمي تماشياً مع الإجراءات الاحترازية بسبب جائحة كورونا

٩. تم عقد عدة أنشطة لأطباء الإمتياز من ورش عمل ومحاضرات علمية وحضور مؤتمرات علمية

### الأنشطة والدورات التدريبية المؤتمرات العلمية:

## **Internship Comprehensive Care Program**

### **For Tutors**

- 1) Each department assigns a main responsible tutor and co-tutors to be responsible of 60 interns during the three months' period.
- 2) Supervisors will be present in their assigned clinics. In case a consultation is needed in a different clinic, they will be called to the other clinic.
- 3) A portfolio is given to each intern to be filled and updated regularly on weekly basis and uploaded on the Moodle.
- 4) A self-assessment paper is attached in the portfolio for each intern to document the treatment steps done throughout the week and to be uploaded to the Moodle on weekly basis.
- 5) There will be a weekly meeting (Sunday of every week at 2:00 pm) between the internship administration team, the head of the comprehensive program Prof.Dina El Kassas and all internship coordinators and assigned tutors to review the past week outcome.
- 6) Photography:  
**A:** Photography for scientific documentation and case presentations will be done by MIU photography and documentation center.

**B:** The interns will sign a consent that photography of patients is prohibited and will only be used for MIU case presentation purposes. Photographs should include dental content without any face identity of the patient. If a photograph was used on a social media platform, legal actions will be taken against the intern.

## Self-Reference Weekly Report

((To be uploaded to the Moodle on weekly basis))

INTERN FULL NAME: Hoda Hatem Abdelmanem

INTERN ID #: 2015/04899

TUTOR NAME: Dr. Asla / Dr. Mohamed Samy

### Self-Note for Week 1:

Day 1

DATE: 2/8/2021

Procedure:

Primary impression upper & lower for Partial overdenture.

Day 2

DATE: 4/8/2021

Procedure:

- endo in upper left 3

Day 3

DATE: 5/8/2021

Procedure:

- Scaling & RSD ~~Perio~~ chart
- extraction of LE.

Oral surgery intern program SWOT analysis

| S                                                                                                                                                                                                                                              | O                                                                                                                                                                                                                                                                                                                                    |

## SWOT Analysis for the Internship program

### Endodontic department

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Strengths:</b> <ol style="list-style-type: none"><li>1. Several theoretical sessions and preclinical course to make sure that all the candidates have the sufficient knowledge to start working on full patient cases smoothly</li><li>2. Rotary instrumentation is now available for intern students.</li><li>3. Case presentations are held at the end of each round.</li><li>4. Hi-tech courses are available for the patients on the scientific day, while not interfering with their working hours.</li></ol> | <b>Weakness:</b> <ol style="list-style-type: none"><li>1- Patient scheduling.</li><li>2- Material deficiency</li><li>3- Intern students not aware with dental market</li><li>4- Comprehensive manner for all interns, should become applicable by now</li></ol>                                                                                                                    |
| <b>Opportunities:</b> <ol style="list-style-type: none"><li>1. More staff, without affecting department needs in under and post graduate courses</li><li>2. Case documentation center, especially comprehensive cases, for any future opportunities (conferences, competitions etc.)</li></ol>                                                                                                                                                                                                                        | <b>Threats:</b> <ol style="list-style-type: none"><li>1- Covid 19 pandemic may affect the flow of patients especially after clinics closure for a long time compared to other hospitals/universities in our area.</li><li>2- Due to the pandemic, the undergraduate clinical training was not sufficient. Interns will require extra effort with training and workshops.</li></ol> |

## SWOT Analysis for Intern program

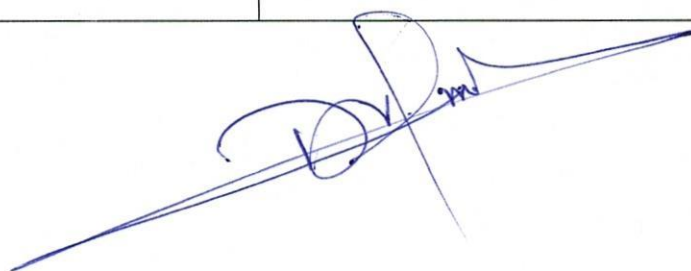

| Strength                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Opportunities                                                                                                                                                                                                    |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Interns get to perform many steps concerning Fixed Prosthodontics</p> <p>For Fixed Prosthodontic round, the faculty provides all the facilities to practice working from instruments to processed restorations (PFM, and all ceramic press and CAD)</p>                                                                                                                                                                                                                                  | <p>Workshops and lectures; for training, work revision and getting introduced to new practices (September 2020: post and core, CAD/CAM)</p> <p>Lectures and formative assessments on their clinical training</p> |
| Weakness                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Threats                                                                                                                                                                                                          |
| <p>In addition to the coordinator; Dedicated TAs needs to increase (minimum of 2) to adjust the proportion of staff to interns</p> <p>Due to limited attendance (3 days per week per group), and setbacks of lab work , as well as patient appointments ; interns are unable to finish a bridge case from reduction to delivery</p> <p>High patient load, that sometimes delays work times, also internal referrals from other departments without referring to Fixed prosthodontics DC</p> | <p>Maybe the risk of exposure to COVID-19 infection</p>                                                                                                                                                          |

## SWOT Analysis for the internship program Removable prosthodontics department

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Strengths:</b> <ul style="list-style-type: none"><li>1- The interns can work full cases in their requirements besides separate and follow up cases.</li><li>2- A staff member and teaching assistant are always attending in the training program each day.</li><li>3- A weekly seminar is held with the staff members for revising different prosthodontics topics</li><li>4- There is Maxillofacial demo and lecture in every round</li><li>5- The interns present their cases or recent topics at the end of each round</li></ul> | <b>Weakness:</b> <ul style="list-style-type: none"><li>1- Interns don't work advanced cases such as attachments, implants and digital work</li><li>2- There is sometimes delay in laboratory work.</li><li>3- Wasting time to bring the work from lab</li><li>4- Sending the cases that need metal frameworks to external labs.</li></ul> |
| <b>Opportunities:</b> <ul style="list-style-type: none"><li>1- good flow of patients</li><li>2- Implant workshops can be applied in every round</li><li>3- The digital lab. Could be introduced in the prosthodontics work</li></ul>                                                                                                                                                                                                                                                                                                    | <b>Threats:</b> <ul style="list-style-type: none"><li>1- Interns refuse to take removable prosthodontics round</li><li>2- Covid 19 pandemic may affect the flow of patients and the work in clinic</li></ul>                                                                                                                              |

## **15<sup>th</sup> Annual Scientific Day Report**

- 1) The 15<sup>th</sup> annual scientific day took place on Sunday the 31<sup>st</sup> of October 2021 at internship administration office seminar room.
- 2) The Scientific day started at 9:00 AM by an opening speech from the Dean of Faculty of Dentistry and Head of Internship Office.
- 3) The Scientific day included a coffee break between the case presentations.
- 4) All interns were invited to participate either by presenting or by attending for discussion of cases. 36 interns presented treated cases during the 15<sup>th</sup> annual scientific day.
- 5) Interns presented their cases in front of the attendees including representatives from all departments along with the dean of faculty of dentistry.
- 6) Interns received certificates for their participation and case presentation in the 15<sup>th</sup> annual scientific day.
